

FEEDING GUIDELINES

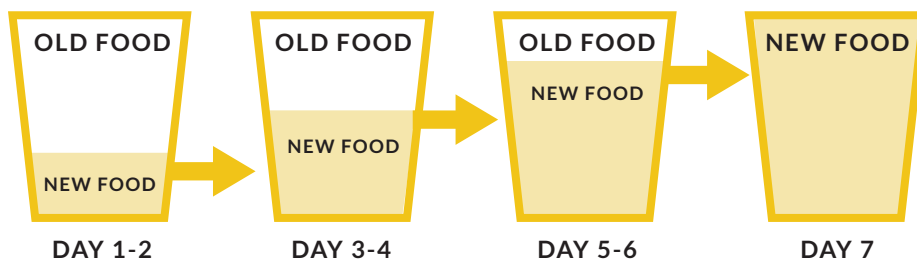

Please follow these steps to ensure a smooth diet transition for your new mutt.

Muttville will send you home with the current food your dog has been eating.

It is not uncommon for dogs to be too nervous to eat in their new home. If your dog goes more than 48 hours without eating, please contact your veterinarian.

Portion size is based on your dog's size, weight, and other various factors. We suggest feeding the portion recommended on the bag of dog food you plan on transitioning to.

ALWAYS TRANSITION YOUR DOG TO ITS NEW FOOD OVER THE COURSE OF ONE WEEK, FOLLOWING THIS GUIDELINE:

Remember to check your dog's medical case summary to see if it requires a prescription diet.

Schedule an appointment with a veterinarian within 10 days of your adoption to discuss your dog's diet.

Muttville recommends dog food which has been quality tested by the AAFCO (Association of American Feed Control Officials). Please visit <http://www.aafco.org> to learn more.
